

NEW HOLLAND TREATS

Sweet Skulls

ALL RECIPES PROVIDED BY WWW.SPOONFUL.COM

You will need:

- 12 marshmallows
- Confectioners' sugar
- 24 unfrosted cupcakes (white or yellow works best)
- White frosting
- Junior Mints, chocolate chips, and slivered almonds

Instructions:

1. Cut the marshmallows in half widthwise using kitchen shears dipped in confectioners' sugar (this keeps them from sticking).
2. Carefully pull each cupcake liner partially away from the cake and tuck half a marshmallow between the paper and the cupcake to create the skull's jaw.
3. Frost each cupcake and marshmallow, then add Junior Mints with white frosting dots for eyes, a chocolate chip nose, and slivered almond teeth.
